

At **ACA Lighting Apostolidis**, we are pleased to announce the successful completion of our investment project under the “**Competitiveness**” Program (NSRF 2021–2027) – **Fundamental Digital Transformation of SMEs**.

Objective: The goal was to modernize and upgrade our company’s technological infrastructure in order to improve operational efficiency and strengthen our digital resilience.

Key Initiatives & Equipment:

- Installation of a new server and network equipment for faster data processing and security.
- Integration of advanced digital invoicing and payroll software to automate processes.
- Procurement of new, high-performance and energy-efficient office equipment (computers, printers, etc.).

The Results:

- Faster service for our customers and partners.
- Reduced operating costs and transaction processing times.
- Enhanced corporate data security and overall competitiveness.
- Reducing our environmental footprint through energy savings from our modern energy systems.

This project was implemented with co-funding from Greece and the European Union.
